

# 2010 WALK-A-THON Fundraising Goals:

Through this year's Auction we have taken great steps toward reaching these goals! Thank you for your continued partnership with us as we see them to completion!

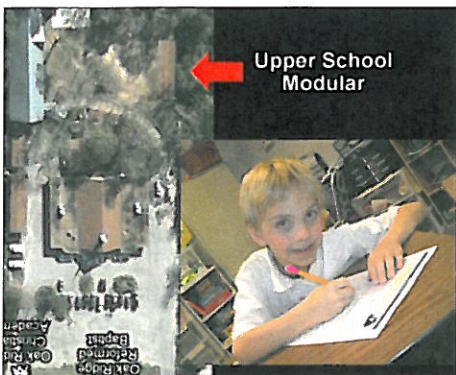

## Main Building Renovation: \$12,000

We want to put our best face forward by updating the front of our main building with a stone facade. Estimated at almost \$12,000, this exterior change will reflect the quality education taking place inside.

## Updated Signage: \$8,000

Updated Signage will include not only an upgraded stone sign, but also a marquee to advertise upcoming events. Estimated at \$8,000, this update will project a sense of permanence in our community.

## Additional Classrooms: \$40,000

With a growing student population, we have outgrown our current facilities and are in need of two additional classrooms. Estimated at \$40,000, the addition of two modular classrooms will allow us to meet the needs of students through 12<sup>th</sup> Grade.
